

# Julia Dunbar Professional and K-12 Bio

Julia Dunbar

May 2017

## 1 Professional Bio

My name is Julia Dunbar and I am currently a student at Siena College in Albany, NY. I will be graduating with my degree in Computer Science in May, 2018. I am a dedicated, hard-working individual, who puts my all into everything that I do. I work well in both group and individual settings and enjoy team camaraderie. Anything that includes problem solving and hard work is a good challenge for me and I look forward to dedicating the time and effort to getting the project done. I actively seek opportunities to continue growing my skill sets and desire an environment that motivates and pushes people to want to do their best work. My immediate goals are to continue my education and enrichment in computer science and to pursue a summer internship in the computer science field to gain hands on experience and help me to define my specific areas of interest. One lecture that I ran across that has inspired me in multiple ways and has influenced me in my professional career is that called the Last Lecture by Randy Pausch. [1].

A picture of Julia is shown in Figure 1.

## 2 Julia's Schooling

School	Year
Siena College	2014-Present
Westlake High School	2010-2014
Burneson Middle School	2008-2010
Parkside Intermediate School	2006-2008
Bassett Elementary School	2002-2006

Table 1: Julia's Schools

Julia's School history is in table 1.

### 3 K-12 Bio

My name is Julia Dunbar and I am from Cleveland, OH. I am currently a student at Siena College in Albany, NY. I play tennis in college and for fun I like to read and hangout with friends! One of my favorite book series to read when I was younger were choose your own adventures.

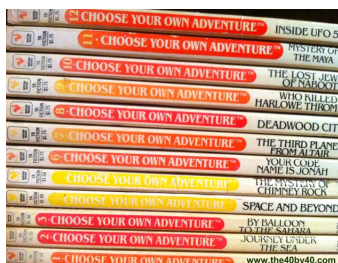

Figure 2: Julia's Favorite Childhood Books

A picture of choose your own adventure books is shown in Figure 2.
